Fee Card

Fill it in once from your written rules. Tape it by the phone. Everyone says the same fee, the same way, every call.

1. OUR FEES

Daytime trip / diagnostic fee: _____ Credited to repair? ☐ Yes ☐ No

After-hours dispatch fee: _____ Credited to repair? ☐ Yes ☐ No

What the fee covers: _____

Estimate visit for replacements: ☐ Free ☐ Fee: _____

2. SAY IT ONCE, UP FRONT

“There’s a [fee] trip fee that covers [what it covers]. It [comes off the bill if you go ahead / covers the visit on its own]. I have [time] or [time]. Which works?”

Pushback: *“I understand. That fee gets a tech out and covers finding the problem, and you get a written price before any work starts. I have [time]. Want it?”*

Still no: *“Understood. The next option I can offer is [next real option]. Want me to put you down for it?”* Log E if nothing books.

3. PRICE-FIRST CALLERS

Ask first: What’s it doing? What kind of system, about how old? When did it start?

Repairs: give the fee only, never a repair price. Then offer a time.

Replacements: a range only if it’s written here: _____ to _____ (blank = no range, don’t guess). Then offer an in-home estimate visit.

Still won’t book without a price? Log F.

Our suggestion, not an industry standard. Not legal advice: fee disclosure rules vary by state, so check with your state contractor board or a lawyer before you settle your wording. Full scripts: shopdispatch.github.io/shopdispatch/offers/call-scripts/ · ShopDispatch · free
